## EXPERIENCE

### Linkedin Learning, California — *Assistant Technical Author*

JAN 2021 - NOV 2021

#### Background:

LinkedIn Learning is an American massive open online course provider. It provides video courses taught by industry experts in software, creative, and business skills.

#### Tasks:

I aided in producing technical programming courses called Recursion, and this includes:

- I pioneered technical problems and broke them down into their simplest form using a recursion algorithm in the video
- I developed a Factorial program iteratively. The video demonstrates how loops work in JavaScript functions.
- I discussed how a recursive program executes. This introduces recursion to people as an alternative to loops.
- I differentiated between iterative and recursive programs. This allows the viewers to analyse the best approach to use in different algorithmic challenges.

**Technologies:** JavaScript, Keynote.

### Deydam, Lagos — *Frontend developer*

FEB 2018 - Present

#### Background:

Deydam is a social media service, with a music streaming feature, on the platform users can upload, listen, and download music and also share their photos.

## SKILLS

Critical thinking,  
Object-Oriented and Functional  
Methodologies.

People Management,  
Web development,

Software Strategy,

Planning and Leadership.

## LANGUAGES

JavaScript, HTML/CSS, Python

## FRAMEWORKS

React, Tailwind, SCSS,  
Bootstrap

## Tasks:

I was responsible for the front end development of [deydam.com](http://deydam.com) and this includes:

- Designed the user interface and information architecture for the app.
- Deployed the services on a private server instance running on Netlify

**Technologies:** ReactJs, Material UI, Tailwind.

## AOB-BRONIX LTD, Lagos — *Internship*

NOVEMBER 2015 - APRIL 2016

- I built my first web page with basic web technologies(HTML, CSS).
- I designed and coded user interfaces for a simple calculator, to-do list
- Likewise, I developed excellent interpersonal, oral and written communication skills, including commenting software code.
